

The New Era of  
AI-Driven  
Technical Analysis  
for MetaTrader 5.

# Strategic Manual

---

SETUP TRADE 2026

## **1. Trading has evolved. So have we.**

At Setup Trade, we moved beyond basic indicators to focus on Proprietary Technology and Computer Vision. We replaced legacy tools with high-precision AI systems. This manual explains how to leverage this new intelligence to gain a professional edge in 2026.

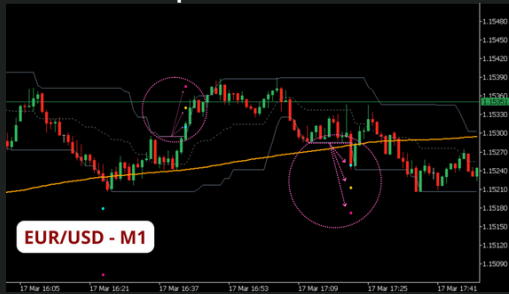

## 2. Why AI-Powered Trading?

- **Precision:** Our AI filters out the market noise that the human eye often ignores.
- **Speed:** Instant setup validation in milliseconds.
- **Cost-Efficiency:** Get elite-level analysis for less than \$0.18 (R\$ 0,90) per trade.
- **Objectivity:** Eliminate emotional bias with data-driven signals.

# 3. The Core Pillars

## Fibochian Flow:

The ultimate trend-following tool. It merges Fibonacci levels with Donchian Channels for explosive breakouts.

## SetupTrade SafeGuard:

Your shield against market reversals. Designed to protect your capital when volatility spikes.

## ST Smooth Trend:

A powerful noise filter for clean chart analysis and precise entry points..

## **Don't Trade Alone.**

Access our full ecosystem or visit our MQL5 storefront to download the latest versions of our proprietary tools.
